

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	31 January 2025
Team ID	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Design
Project Name	
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (FRs)	Sub Requirement (Steps / Sub Task)
FR-1	Standard Laptop Request	User can access the Standard Laptop catalog item and submit a procurement request.
FR-2	Request Submission	The submitted catalog request is captured by ServiceNow for processing.
FR-3	Flow Trigger	Flow Designer is triggered when the Standard Laptop service request is submitted.
FR-4	Automated Assignment	The flow performs the configured assignment step so the request can be processed by the appropriate team.
		Confirmation via OTP
FR-3		
FR-4		

NFR-1	Usability	Simple Service Catalog submission for a Standard Laptop request.
NFR-2	Security	ServiceNow access and workflow execution are controlled by configured user roles and permissions.
NFR-3	Reliability	The defined Flow Designer workflow consistently triggers for the submitted request.
NFR-4	Performance	Automation reduces manual processing steps in the standard laptop procurement process.
NFR-5	Availability	The solution runs within the ServiceNow platform and its configured Service Catalog and Flow Designer components.
NFR-6	Scalability	The repeatable automated flow can process standard laptop requests without repeating manual workflow steps.
NFR-3	Reliability	
NFR-4	Performance	
NFR-5	Availability	
NFR-6	Scalability
